**MRIGlobal: Innovative Solutions
for Challenging Problems**

Zachary DeMars

**MRIGlobal
Kansas City, Missouri**

Beginning in the 1940's, MRIGlobal has been providing innovative solutions to challenging public problems. Founded to help keep the region's best and brightest local, MRIGlobal has transformed into a multidisciplinary organization capable of addressing challenges and issues in a variety of domains. Ranging from software development to high-containment laboratory work, MRIGlobal's mission is to improve the lives of people through innovative science and engineering research.
